ABOUT THE PLUGIN

The scraper plugin for WordPress and WooCommerce enables you to effortlessly bring in products and categories from any online store built on WooCommerce. This is achieved with a simple click by inputting the store's URL. The plugin takes care of the complete product creation process in the background, managing essential information like product name, description, images, and price.

HOW TO SCRAP FROM WORDPRESS/ WOOCOMMERCE

To scrap a product from any WooCommerce store or post from a WordPress website you have simply insert the target link.

After providing the link, set the type of the page and click on the search. One or multiple results will be based on select type. Admin's can choose which products they want on their site and import them

Target link: **Select Type**

Result:

<input type="checkbox"/>	Name	PriceContent	Image
<input type="checkbox"/>	Metallic Bottle \$ 12	Made from high-quality Aluminium. Uses vacuum technology for longer temperature retention. Add this Sports Bottle to your sports bag to carry water, shakes, juices and more.
